📍 Highgate, Perth WA

## Summary

---

*I am responsible, proactive, a team worker, committed and focused on achieving results. I love using technology to solve problems. I always try to provide good customer service by managing my time well, prioritizing tasks, and analyzing situations to find the best solution.*

## Volunteer Experience

---

### Web Developer Volunteer at Dynamis Social

October 2023 – Present

- *Dynamis Social is a Non-Governmental Organization (NGO) based in Belo Horizonte, Brazil. They focus on social and humanitarian projects aimed at community development. As a Web Developer Volunteer, I am responsible for building and maintaining websites to showcase Dynamis Social's projects in Belo Horizonte communities. My first project involved creating the website for the [Tennis School Project](#), a social initiative using sports to empower young people by fostering confidence and self-esteem.*
  - PHP 8;
  - HTML, CSS, JavaScript, jQuery, Bootstrap;

## Experience

---

### Full Stack Developer at Radix Engineering & Software

July 2021 – February 2023

- *I worked at Radix Engineering, a consulting company in Brazil with numerous clients. In my role as a Full Stack Developer, I utilized both Agile and Waterfall methodologies while collaborating with the team on various projects. My focus was on delivering high-quality features promptly. I worked with a range of technologies, including:*
  - Java 8, PHP 7;
  - React Native;
  - HTML, CSS, JavaScript, jQuery, Bootstrap;
  - WEB APIs;
  - Data Base Oracle e MySQL;
  - JUnit e Mockito;

### System Analyst at Bradesco Seguros

November 2017 – June 2021

- *As a Systems Analyst at Bradesco Seguros, one of Latin America's largest health insurance companies, I contributed to improve some legacy systems and developing new features. Additionally, I led and managed numerous projects in addition to giving technical support, identifying and fixing bugs, elaborating and executing test cases and writing business and technical specifications.*

*Used skills:*

  - Projects leadership and management;
  - Write business and technical specifications;
  - Test case;
  - Technical support;
  - Java 7, HTML, CSS, JavaScript, jQuery, MVC, Oracle;
